

Going to the Dentist

Sometimes we have to visit the dentist.

We can walk to the dentist on our campus.

**The dentist is someone who checks
our teeth.**

You may have to wait until the dentist is ready to see you.

The dentist will ask you to sit in a special chair.

The dentist will look at your teeth.

You will have to open your mouth really wide so the dentist can look inside.

You will have to have safe hands and a calm body at the dentist's office.

Safe Hands

Calm Body

Sometimes the dentist will clean your teeth.

**The dentist might use different tools.
These are safe and will not hurt you.**

After the dentist finishes checking your teeth, you will be all done!

**We can walk back to Monarch School or
Monarch Boarding Academy.**
